GENERAL INFORMATION

IQM Continuous Professional Development Programme

HRD CORP CLAIMABLE COURSE

I wish to attend the “**Legislation Course For Quarrying 2023**” from 13 - 15 February 2023.

Name:

I/C No:

Date of Birth:

IQM Membership No (if any):

Co's Name:

Address:

.....

.....

Position Held:

Telephone: Fax:

Email:

Enclosed is Cheque / Bank Draft / Money Order

No..... for RM..... payable to

“**Institute of Quarrying Malaysia Bhd**”.

Online transaction can be made to:

A/C No: 014187 208342 Maybank

(kindly email bank transaction advise)

PLEASE FORWARD PAYMENT TO:

INSTITUTE OF QUARRYING MALAYSIA BHD

No. 23, Jalan Utama 1/7,

Taman Perindustrian Puchong Utama (Puchong Perdana),

Seksyen 1, 47100 Puchong, Selangor DE, Malaysia.

Tel: 03-8062 4194/5 Fax: 03-8061 8258

Email: admin@iqm.com.my Website: www.iqm.com.my

Date:

Signature & Chop

(Please photocopy the Registration Form if required)

A. Registration Fee

Member : RM 1150.00
Non-Member : RM 1250.00
Government Officers : RM 1150.00

Early Bird
(before 06/02/2023)

RM 1050.00
RM 1150.00
RM 1050.00

HRD CORP CLAIMABLE COURSE

This is inclusive of course materials, morning and afternoon tea and lunch.

B. Course Size

Participation is limited to not more than 30 persons and will be based on first-come first-served basis.

C. Accommodation

You may arrange your accommodation with the following hotels:

- 1) *Sri Puchong Hotel* 03-80623373
- 2) *Green Hotel* 03-80686666
- 3) *Four Points By Sheraton Puchong* 03-58918888
- 4) *Hilton Garden Inn Puchong* 03-80841299

D. Cancellation

A deduction of 50% of the Registration Fee will be made being handling charges for cancellation after confirmation by phone or facsimile. No refund shall be made for cancellation after the closing date of the course. A substitute is accepted.

E. Examination

Participants will be required to sit for a 2 hour written examination upon completion of the course

Exam date: 15 February 2023

Time: 2.00pm - 4.00pm

F. Closing Date

The closing date for registration is 6 February 2023.

GEOSCIENCE MALAYSIA

To be held at

INSTITUTE OF QUARRYING MALAYSIA BHD
23, Jalan Utama 1/7, Tmn Perindustrian Puchong Utama
(Puchong Perdana), Section 1, 47100 Puchong, Selangor D.E.

INTRODUCTION

Quarrying activities are normally associated with a number of impacts either positively or negatively. Hence, laws are enacted to regulate the activities to protect people and the environment; to enforce rights and to solve complaints or conflicts. With that, laws would prevent or deter people from behaving in a manner that negatively affects the quality of life of other people. Therefore the consequences of breaking the law would call for penalties befitting the offences committed.

In Malaysia, there are several laws that govern the quarrying activities vis-à-vis the State Quarry Rules under the National Land Code 1965, Environmental Quality Act 1974, Occupational Safety and Health Act 1994, Explosives Act 1957, etc. All these laws and their subsidiary legislations aim to protect those working at a quarry and others who may be affected by the quarrying activities that is those living, passing or working nearby, or visitors to the site.

All these regulations, as far as they are concern, require permit or licence holders including the shot-firers to carry out their activities in a safe, orderly, responsible and sustainable manner.

WHO SHOULD ATTEND

Realizing the heavy responsibilities which the owners of quarries have to carry, the IQM with the cooperation of JMG would like to conduct a 3 days basic legislation course for the quarrying fraternity. Owners/Managers of quarries are highly recommended to attend this course.

OBJECTIVE

The objectives of this course are for participants to:

- (a) comprehend available laws applicable to quarrying activities;
- (b) know the legal responsibilities of holders, managers and shotfirers; and
- (c) be better equipped to carry out quarrying competently.

At the end of the course, participants are expected to know the available laws relating to quarrying and the attached responsibilities that come with them. This would make the holders, managers and workers better prepared in dealing with the requirements of the relevant laws.

A 2 hour examination will be conducted at the end of the course and participants who pass the exam are considered to have fulfilled the basic requirements before he can be registered as a quarry manager under JMG.

METHODOLOGY

The course will be conducted in English / Bahasa Malaysia using slides, video, case study and group discussion.

BIODATA OF SPEAKER

Hj Mustapha Bin Mohd Lip, FIQ

Hj Mustapha graduated in Mining Engineering (first class honours) from University of New south wales, sydney, Australia in early 1979 and joined Department of Mines upon completion of studies. In 1994 he attended the shotfiring and blast design courses in United Kingdom. He furthered his studies in 1995 and obtained Msc (Environmental Resources) from salford University, Manchester, UK. He rose in ranks in Minerals and Geoscience Department to become the Deputy Director General and retired from the Department in 2015. He was a key person in the formulation and procedures for the certification of shotfirers. Highly knowledgeable in blasting, he has been lecturing in shotfiring courses organised by Institute of Quarrying since 1994.

IR. JUNA AZLEEN BIN ABDUL GHANI

Ir. Juna Azleen bin Abdul Ghani was graduated from Universiti Sains Malaysia, Pulau Pinang in Mineral Resources Engineering. In the year 2000, he joined JMG and started his service at JMG Head Quarter in Kuala Lumpur. Then in 2010 he pursued his study in Master of Science in Mineral Resources Engineering at Universiti Sains Malaysia, Pulau Pinang. His study is about determination of site factors for scaled distance technique for blasting activity in quarry. Currently he works as Deputy Director of Quarry and Mines at JMG Johor.

Ir. Juna Azleen is interested in blasting especially in production blasting at quarry as well as controlled blasting at construction area. He is always invited to present papers on blasting at seminars and symposiums, and also given lectures at courses related to blasting and blast monitoring conducted by the Institute of Quarrying Malaysia, Malaysia Quarrying Association and Institution of higher learning. Apart from that, he is a Professional Engineer registered with Board of Engineer Malaysia, a corporate member of the Institution of Engineers, Malaysia and a committee member of Certification Panel for Shotfirer Certificate.
