INTERNATIONAL AFFILIATIONS:

The Institute of Quarrying United Kingdom The Institute of Quarrying Australia The Institute of Quarrying Southern Africa The Institute of Quarrying New Zealand The Institute of Quarrying Malaysia The Institute of Quarrying Hong Kong

INTRODUCTION

The quarrying profession has always been viewed as a challenging career worldwide due to the nature of the work, the complexity and the risks involved in getting the job done. This prominent industry is acknowledged as having contributed much to the further enhancement of Malaysia's national development and economy. The need for a well-structured occupational safety and health training program in the quarrying industry should thus be emphasised for the further development of an efficient and sustainable work environment. The quarrying industry workforce should thus be technically competent and well conversant in safety and health skills to deal with the public and their international counterparts to progress in this k-economy era. Efficient occupational safety and health management in Malaysia can assist in improving the safety records via the reduction of accident and injury cases at respective worksites. Increased awareness of the management and that of the site personnel towards safety in the industry, via systematic OSH courses, would be useful in further minimising the number of accidents.

Owing to strong requests from the Department of Occupational Safety and Health (DOSH), the Department of Minerals and Geoscience (DMG), and the quarrying industry, the Institute of Quarrying Malaysia working in smart partnership with the National Institute of Occupational Safety and Health (NIOSH), jointly designed and prepared the materials for this innovative 'INOSH Occupational Safety and Health Course for the Quarrying Industry' aimed at further enhancing professionalism and OSH awareness of the quarrying industry. This timely and practical course is approved by the Department of Occupational Safety and Health and the Department of Minerals and Geoscience. This official INOSH OSH Course is the de-facto Competency Certificate for Occupational Safety and Health for the quarrying industry and also one of the core modules of the Quarry Managers Certificate (QMC).

WHO SHOULD ATTEND

This course is tailored to meet the needs of managers, engineers, supervisors, health & safety officers and other employees who are dealing with and involved in all risks and hazards and responsible for the health and safety of other workers in the mining & quarrying sectors.

TRAINING METHODOLOGY

Course methods include combination of:

- Lectures
- Group Discussions
- Presentations
- Training Videos
- Visit to NIOSH

COURSE CONTENTS

- 1) OSH Awareness
- 2) Legislations
- 3) Occupational Safety & Health Management System
- 4) Quarry Activities vs OSH
- 5) Appointment of OSH Personnel
- 6) Safety & Health Policy & Activities
- 7) Consultation, Communication and Promotion of OSH
- 8) Managing the Safety & Health of Contractors

BIODATA OF SPEAKERS

1. Ir Mohamad Salleh Bin Soehod

Consultant

Quarrying & Environment, Health and Safety

Academic Qualification

- Advanced Diploma in Electrical Engineering, MARA Institute of Technology

2. En Nurul Huda Bin Romli

Head of Unit (Mines & Quarry)

Department of Minerals & Geoscience Malaysia, Sarawak

Academic Qualification

- B Eng (Hons) in Mineral Resources
USM Penang (1998)
- MSc in Occupational Safety and Health,
UNSW, Sydney, Australia (2010)

4. Dato' Prof Dr Ir Eric Goh

Professor in Engineering at

University of Science Malaysia (USM)

Academic Qualification

- B.Sc (Hons) - University of Leeds, UK
- M.Sc - University of Leeds, UK
- PhD - University of Queensland, Australia
