GEOSCIENCE MALAYSIA

to be held at

**FYS MARKETING SDN BHD**

2519, MK 17, Jalan Berapit,  
14000 Bukit Mertajam, Penang.

## INTRODUCTION

The quarrying profession has always been viewed as a challenging career worldwide due to the nature of the work, the complexity and the risks involved in getting the job done. This prominent industry is acknowledged as having contributed much to the further enhancement of Malaysia's national development and economy. The need for a well-structured occupational safety and health training program in the quarrying industry should thus be emphasised for the further development of an efficient and sustainable work environment. The quarrying industry workforce should thus be technically competent and well conversant in safety and health skills to deal with the public and their international counterparts to progress in this k-economy era. Efficient occupational safety and health management in Malaysia can assist in improving the safety records via the reduction of accident and injury cases at respective worksites. Increased awareness of the management and that of the site personnel towards safety in the industry, via systematic OSH courses, would be useful in further minimising the number of accidents.

Owing to strong requests from the Department of Occupational Safety and Health (DOSH), the Department of Minerals and Geoscience (DMG), and the quarrying industry, the Institute of Quarrying Malaysia working in smart partnership with the National Institute of Occupational Safety and Health (NIOSH), jointly designed and prepared the materials for this innovative 'INOSH Occupational Safety and Health Course for the Quarrying Industry' aimed at further enhancing professionalism and OSH awareness of the quarrying industry. This timely and practical course is approved by the Department of Occupational Safety and Health and the Department of Minerals and Geoscience. This official INOSH OSH Course is the de-facto Competency Certificate for Occupational Safety and Health for the quarrying industry.

## BIODATA OF SPEAKERS

### ZEEMS FOO KHENG SIN

Zeems Foo Kheng Sin is Chairman of FYS Marketing Sdn Bhd and his family has been operating a granite quarry in Penang since the 1960s.

He holds a B.Eng in Electrical & Electronics Engineering from University of Strathclyde, Scotland and is a licensed Shotfirer (JMG & PDRM) and Quarry Manager from IQM.
