INSTITUTE OF QUARRYING MALAYSIA BHD

23, Jalan Utama 1/7, Taman Perindustrian Puchong Utama
(Puchong Perdana), Seksyen 1, 47100 Puchong, Selangor DE, Malaysia.

INTERNATIONAL AFFILIATIONS:

INTRODUCTION

Mining & Quarrying activities are normally associated with a number of impacts either positively or negatively. Hence, laws are enacted to regulate the activities to protect people and the environment; to enforce rights and to solve complaints or conflicts. With that, laws would prevent or deter people from behaving in a manner that negatively affects the quality of life of other people. Therefore the consequences of breaking the law would call for penalties befitting the offences committed.

In Malaysia, there are several laws that govern the mining & quarrying activities vis-à-vis the State Quarry Rules under the National Land Code 1965, Environmental Quality Act 1974,

Occupational Safety and Health Act 1994, Explosives Act 1957, etc. All these laws and their subsidiary legislations aim to protect those working at a quarry and others who may be affected by the quarrying activities that is those living, passing or working nearby, or visitors to the site.

All these regulations, as far as they are concern, require permit or licence holders including the shot-firers to carry out their activities in a safe, orderly, responsible and sustainable manner.

WHO SHOULD ATTEND

Realizing the heavy responsibilities which the owners of mines & quarries have to carry, the IQM with the cooperation of JMG would like to conduct a 3 days legislation course for the mining & quarrying fraternity. Owners/Managers of mines & quarries are highly recommended to attend this course.

OBJECTIVE

The objectives of this course are for participants to:

- (a) comprehend available laws applicable to mining & quarrying activities;
- (b) know the legal responsibilities of holders, managers and shotfirers; and
- (c) be better equipped to carry out mining & quarrying competently.

At the end of the course, participants are expected to know the available laws relating to mining & quarrying and the attached responsibilities that come with them. This would make the holders, managers and workers better prepared in dealing with the requirements of the relevant laws.

A 2 hour examination will be conducted at the end of the course and participants who pass the exam are considered to have fulfilled the basic requirements before he can be registered as a quarry manager under JMG.

METHODOLOGY

The course will be conducted in English / Bahasa Malaysia using slides, video, case study and group discussion.

BIODATA OF SPEAKER

IR JUNA AZLEEN BIN ABDUL GHANI

Deputy Director (Quarry and Mines), JMG Sarawak

Ir. Juna Azleen holds a Bachelor of Science degree in Mineral Resources Engineering from Universiti Sains Malaysia (USM), Pulau Pinang. He began his career with the Department of Minerals and Geoscience Malaysia (JMG) in 2000 and has served in various JMG offices across the country. In 2010, he returned to USM to pursue a Master's degree in Mineral Resources Engineering, focusing his research on the application of the scaled distance technique in quarry blasting.

Currently serving as the Deputy Director (Quarry and Mines) at JMG Sarawak, Ir. Juna is an active contributor to the mining and quarrying industry. He is a Professional Engineer registered with the Board of Engineers Malaysia (BEM), a corporate member of the Institution of Engineers Malaysia (IEM), and a Council Member of the Oil, Gas and Mining Technical Division. He is also a certified HRD Corp Accredited Trainer and has been a regular lecturer for various courses organized by the Institute of Quarrying Malaysia (IQM).
